PROFILE

Front-end focused developer and recent Computer Engineering graduate, with hands-on experience building and deploying web applications using React, JavaScript, and Node.js. Comfortable across the full stack from UI implementation to backend APIs and cloud deployment (AWS, Netlify). Reliable, fast-learning, and used to working under pressure from part-time hospitality work, now looking for a first opportunity to grow as a professional developer.

WORK EXPERIENCE

Waiter | Ebel sh.p.k.

June 2024 – Present

- Provided customer service in a fast-paced restaurant environment, handling multiple tables and requests simultaneously.
- Collaborated with kitchen and service staff to ensure smooth, timely service.
- Developed strong communication, time-management, and problem-solving skills under pressure — directly transferable to collaborative, deadline-driven development environments.

PROJECTS

E-Commerce Web Application | React · Node.js · Express · AWS

Built a full-stack e-commerce interface with a product catalog, product detail pages, and shopping cart functionality (add, update, remove items). Connected a React front end to a custom Node.js/Express backend and deployed the complete application to AWS Elastic Beanstalk.
